Passiflora Passion flowers and passion fruit

SPECIES	VARIETY	Comments
actinia		Fragrant flowers have white petals, long frilly purple filaments. Plants will resprout from temp's as low as 20F.
caerulea	'Spyder'	Especially hardy and vigorous form of P. caerulea. Flowers have white and purple crown with white centers.
citrina		Soft yellow, 1" flowers. Hardy to 20 - 25F.
edulis	'Black Knight'	2" white flowers, large excellent fruit. Self-fruitful. Hardy to 20 - 25F, fairly compact.
edulis	'Frederick'	Large, fragrant flowers are white with a purplish center and frilled filaments. Outstanding fruit and a vigorous plant, but tender. *Fruit must ripen and fall naturally.
edulis	'Nancy Garrison'	Small, frilled greenish white and purple flowers, *edible fruit.
hybrid	'Allspice'	Big, stunning flowers 4" across, lavender with purple filaments banded white and dark purple. Very fragrant. Dies to ground below 25F but resprouts vigorously.
hybrid	'Blue Horizon' TM	Deep blue and white flower on a vigorous vine. Hardy to 20 - 25F.
hybrid	'Coral Glow'	Flowers pendant, up to 4" across. "Hot neon pink, cooling as the flowers age." [Suncrest] 20-25°F.
hybrid	'Coral Seas'(jamesonii)	Coral pink passion flower
hybrid	'Donna Brigham'	HOT, hot pink with a little tuft of neon purple in the center, and long filaments.
hybrid	'Elizabeth'	Spectacular purple flowers with twisty filaments, bright green shiny leaves. One of the nicest plants overall. Hardy to 20 - 25F.
hybrid	'Eynesford's Gem'	Very vigorous, but frost limits size. Small white flowers. Tendrils.
hybrid	'Gloria Moreno' TM .	Vibrant deep pink flowers. Hardy to 25F, probably lower.
hybrid	'Indigo Dream'	White petals, dark violet filaments. Flowers remain open for a few days (most passion flowers only last a day). 20 - 25F.
hybrid	'Lavender Lady'	One of the best. Continuous bloom; glowing 3 - 4" flowers are reddish violet to lavender, with nearly white centers. Hardy to 20F or lower. P. amethystina x P. caerulea.
hybrid	'Quazar' TM	Pure white flowers on a vigorous grower with dark green leaves. Hardy to 20 - 25F.
hybrid	'Susan Brigham'	Rampant grower with very large leaves. Huge deep rose-pink flowers.
hybrid	'Victoria'	Violet purple flowers, slightly darker than 'Lavender Lady' (they are very similar varieties). Foliage damaged below 25F, but quickly recovers
hybrid	'Witchcraft' TM	Darkest purple flowers, very hardy.
jamesonii	'Coral Seas'	Very vigorous with coral red flowers. Damaged below 27F but resprouts.
manicata	'Escobar'	Vivid red petals with blue filaments. 20 - 25F.
mixta	'Galupa'	Vibrant pink, tubular flowers.
mollissima		'Fearsomely vigorous' [Suncrest] but tender; seriously damaged at 25F. Bright pink flowers, yellow *edible fruit up to 6" long.
sanguinolenta	'Maria Rosa'	Coral 1 1/2" flowers on a moderate grower.
vitifolia		Also sold as P. coccinea. Bright red flowers. Will bear very good *fruit if hand pollinated [source: MBN]; then let them ripen until wrinkled.
x alatocaerulea ('Pfordtii')		-- a hybrid between P. alata and P. caerulea. Flower sepals alternating white and violet, with purple center. Damaged below 25°F. Now called P. x belottii
x caerulea-racemosa	'Eynesford's Gem'	Dwarf to 6' with mauve pink flowers. Hardy to 20F.
